

Batch Reporting User Guide

Last Updated: March 2014

Overview

Beginning in the 2014 reporting year, providers participating in the Medicare EHR Incentive Program can submit their attestation with other members of their medical group or hospital system who are also participating in the program. The Attestation Batch Upload option allows multiple eligible professionals or multiple eligible hospitals to submit attestations in a single file through the [CMS Registration and Attestation System](#).

Although this option enables groups to submit their attestations together, payments for the Medicare EHR Incentive Program are provided to individuals, not to medical groups or hospital systems as a whole. Providers participating in the Medicaid EHR Incentive Program should check with their state to determine if batch reporting is available.

Please note: providers will still need to register for the Medicare EHR Incentive Program individually or designate a third party to register on their behalf.

Allowable measure category combinations

Providers have the option to submit meaningful use core and menu measures, as well as clinical quality measures (CQMs) through batch reporting. Providers must use 2014 certified EHR technology to participate in batch reporting. Below are the possible combinations for submitting batch attestations:

- Meaningful use core measures and meaningful use menu measures
- Meaningful use core measures, meaningful use menu measures, and CQMs
- CQMs only

When uploading CQMs into the Registration and Attestation System, be sure to:

- Mark the meaningful use core and menu measures categories as “completed”
- Make sure you are not Medicare Advantage-Affiliated

Receive credit for quality reporting

Medicare providers have the option of submitting CQM data electronically to receive credit for quality reporting programs and the Medicare EHR Incentive Program.

Eligible professionals can submit their CQM data through the [Physician Quality Reporting System \(PQRS\)](#), and hospitals through the [Inpatient Quality Reporting \(IQR\) program](#).

How to submit attestation data

1. Begin by downloading either a CSV file or an XML file and the mapping specifications from the [CMS Attestation Batch webpage](#).

The screenshot shows the CMS.gov website interface. At the top, there is a navigation bar with links for Home, About CMS, Newsroom Center, FAQs, Archive, Share, Help, Email, and Print. Below this is the CMS.gov logo and the text 'Centers for Medicare & Medicaid Services'. A search bar is also present. A horizontal menu below the logo contains categories: Medicare, Medicaid/CHIP, Medicare-Medicaid Coordination, Private Insurance, Innovation Center, Regulations & Guidance, Research, Statistics, Data & Systems, and Outreach & Education. The main content area is titled 'Attestation Batch Upload Page' under the 'EHR Incentive Programs' section. The page text explains that starting in 2014, groups can submit attestation information for all Medicare eligible professionals in one file. It lists two key points: 'NOW accepting Batch reporting for Eligible Hospitals' and 'Batch reporting for Eligible Professionals will be available April 2014'. Below this, it states that instructions, templates, and samples apply to both Eligible Professionals and Eligible Hospitals. There are three main sections: 'Attestation Batch Upload - Instructions Documents' (with links for General Upload Instructions, CSV Data Mapping Specifications, XML Data Mapping Specifications, and Reference Data for Stage 1 and Stage 2 Core, Menu and CQM Measures), 'Attestation Batch Upload - XSD-CSV-Templates' (with links for Excel Batch Upload Templates and XSD Request & Response Templates), and 'Attestation Batch Upload - XML-CSV-Samples' (with links for Sample Excel for EP/Hospital/MA Providers and Sample XML Request & Response for EP/Hospital/MA Providers). A final section, 'Attestation Batch Upload - Technical Reference Information*', provides links for eReporting Scenarios and Validations & Errors Reference Sheet. The page footer indicates it was last modified on 03/25/2014 at 10:16 AM and includes a link for 'Help with File Formats and Plug-Ins'.

- Use the mapping specifications to fill out the CSV or XML file. Fill out the batch file to include provider type, measure category combinations, and stage number.

XML File Format

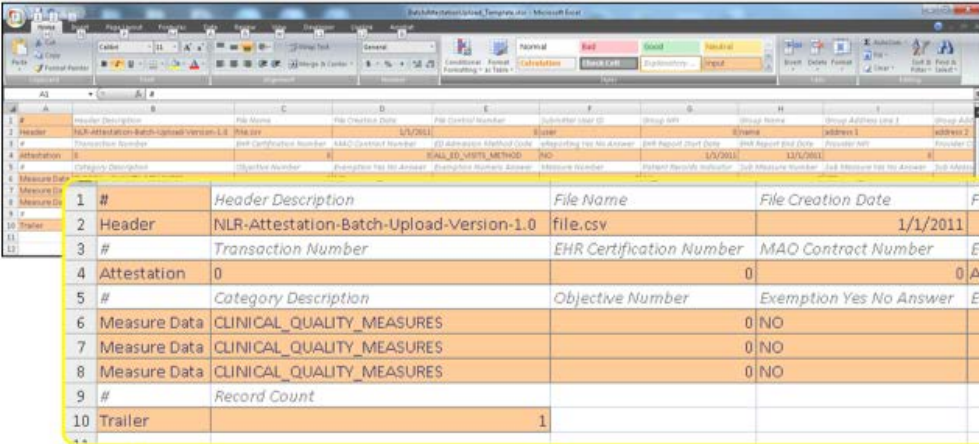

```

<xsd:element name="BatchAttestationRequest" type="BatchAtt
<xsd:complexType name="BatchAttestationRequestType">
  <xsd:sequence>
    <xsd:element ref="Header" />
    <xsd:element ref="Attestations" />
    <xsd:element ref="Trailer" />
  </xsd:sequence>
</xsd:complexType>
<xsd:complexType name="AttestationsType">
  <xsd:sequence>
    <xsd:element ref="Attestation" maxOccurs="unbounde
  </xsd:sequence>
</xsd:complexType>
<xsd:complexType name="AttestationType">

Medicare Attestation Batch
Please select the **Attestation Batch Upload** button to upload Attestations(s) using a batch file.

Attestation Batch Upload

Medicare Attestation Batch
Please select the **Attestation Batch Upload** button to upload Attestations(s) using a batch file.

Attestation Batch Upload

Web Policies & Important Links | Department of Health & Human Services | CMS | CMS.gov | Accessibility | File Formats and Plugins

Note: An attestation batch file can contain a maximum of 10,000 provider attestations. The upload file limit for a user is 25 batch files per day. Once you meet the maximum of 25 batch files, you will not be allowed to upload any additional files until the next day.

- On the Attestation Disclaimer page, click either **Agree** or **Disagree**.

The screenshot shows the 'Attestation Disclaimer' page. At the top, there is a navigation bar with 'Home', 'Registration', 'Attestation', and 'Status' tabs. The main content area is titled 'Attestation Disclaimer' and contains several sections of text, including a 'General Notice', 'Signature of Eligible Professional', and 'DISCLOSURES'. At the bottom of the main content area, there are two buttons: 'Agree' and 'Disagree'. A yellow box highlights these two buttons, and a yellow arrow points from the 'Disagree' button in the box to the 'Disagree' button on the page.

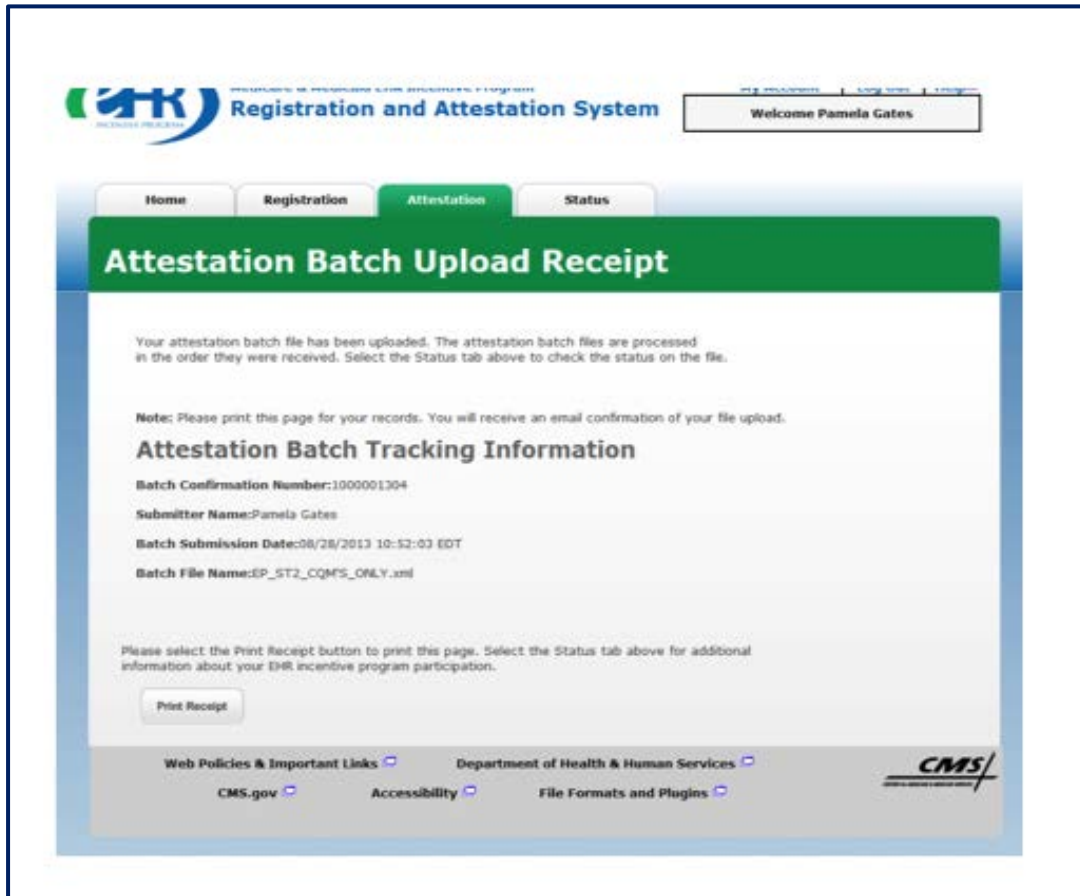

- On the Attestation Batch Upload page, click **Browse** to choose a file. Upload the CSV or XML file with the batch attestation data.

The screenshot shows the 'Attestation Batch Upload' page. At the top, there is a navigation bar with 'Home', 'Registration', 'Attestation', and 'Status' tabs. The main content area is titled 'Attestation Batch Upload' and contains several sections of text, including 'Attestation for the Medicare EHR Incentive Program can be submitted using batch instead of entering data in the Attestation System', 'Please note that you can only upload a maximum of 25 batch files per day', and 'Batch File'. At the bottom of the main content area, there are two buttons: 'Cancel' and 'Upload'. A yellow box highlights the 'Browse...' button, the 'Email Address' and 'Confirm Email Address' fields, and the 'Upload' button. A yellow arrow points from the 'Browse...' button in the box to the 'Browse...' button on the page.

Note: The file extension should match the batch file format: '.csv' for a CSV file or '.xml' for an XML file.

Once you have uploaded your attestation data, enter your email address and review the attestation statement. Mark the attestation statement box and then click the "Upload" button to submit your batch data.

6. Once your attestation batch has been submitted, you will see a receipt page. This will include the batch confirmation number, submitter's name, batch submission date, and file name. Please print your receipt.

Review batch attestation status

1. On the Status tab of the Registration and Attestation System, click the **View Attestation Batch Status** button near the bottom of the screen. This will give you an opportunity to review the batch data you submitted.
2. The Attestation Batch Status page will display one of the following batch statuses and the actions that are available for each batch file:
 - **Batch received** - file was uploaded and is waiting to be processed.
 - **Batch invalid** - file was not processed because it was an invalid format or there were data errors at the file level.
 - **Processed successfully** - file was processed. All attestation records contained in the file were successfully uploaded into the system.
 - **Processed with errors** - file was processed. However, one or more of the attestation records was invalid and could not be uploaded into the system. You may correct the errors and resubmit the invalid attestations.

3. If the **Download** action is available, click to download a response file with the status for each attestation that was submitted and/or the list of error messages. This file will be in the same format as the original batch file (CSV/XML) you submitted.

Note: The Download option is available only for 60 days from the batch submission date.

4. Click the **View** button to display Attestation Batch details and review the summary of individual attestation records.
